

# **xiaomi** Smart Air Purifier Elite Filter User Manual

## Removing the Packaging

Read this manual carefully before use, and retain it for future reference.

Unpack the new filter before use.

Note: Illustrations of the product, accessories, and user interface in this user manual are for reference purposes only. The actual product and functions may vary due to product enhancements.

## Opening the Filter Compartment

⚠ Warning: Make sure the purifier is turned off and the power cord is unplugged before replacing the filter.

Press and hold the release buttons with both of your hands to separate the upper compartment from the filter compartment.

Note: To avoid injuries, do not put your fingers between the upper and filter compartments when replacing the filter.

## Replacing the Filter

Remove the old filter upwards and place the new filter into the filter compartment. Then reinstall the upper compartment.

The dirt may rise in the air when removing the old filter, and it is recommended to wear gloves and a mask before replacing the filter. Then put the old filter into a plastic bag, and secure the bag before discarding it. If you come into physical contact with dust, wash it off with water instead of wiping it off.

Align the filter with the clip on the purifier to install it.

## Precaution

Please refer to the reminder on the purifier's display to replace the filter. The filter that contains activated carbon may give off odors after a period of normal use. It is recommended to put the filter in a place with good lighting and ventilation for a certain period of time, so as to improve the activity of activated carbon and restore its partial adsorption capacity. When the reminder appears on the purifier's display, please replace the filter in a timely manner.
