

Xiaomi 120W Charging Combo (Type-A)

## Uživatelská příručka

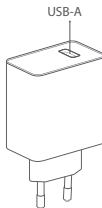

Read these instructions carefully before  
using the product and store them appropriately.

Read this manual carefully before use, and retain it for future reference.

## Product Overview

---

Thank you for using this product. This charger is compact and portable with the maximum output power of 120W. It is compatible with most of the devices on the market.

Illustrations of product, accessories, and user interface in the user manual are for reference purposes only. Actual product and functions may vary due to product enhancements.

## Specifications

---

Name: Xiaomi 120W Charging Combo (Type-A)

Model: MDY-13-EE

Output Port: USB-A

Input: 100-240V~, 50/60Hz, 1.7A

Output: 5.0V 3.0A 15.0W/9.0V 3.0A 27.0W/11.0V 6.0A Max 66.0W Max/20.0V 6.0A Max 120.0W Max

Operating Temperature: -10°C~40°C

Item Dimensions: 81.8\*60.3\*28.4mm (excl. prongs)

No-load Power Consumption: ≤0.15W

## Product Features

---

This product is a 120W Power Delivery (PD) portable charger that features a refined exterior and wide range of device compatibility, and offers a great user experience.

**Safety:** Ten layers of smart protection, including short circuit protection, over-current protection, over-voltage protection, over-temperature protection, under-voltage protection, smart temperature control and more. This ensures that the product operates within the normal current range for greater peace of mind during use.

**Compatibility:** Built-in smart identification chip, compatible with most commercially available smartphones, laptops and other electronic device. (When used with the included Xiaomi charging cable, it can safely charge most commercially available laptops with a USB-C port, with smart fast charging power up to 65W [20V/3.25A].) Take care of everything with just one charger, travelling has never been easier.

**Material:** The case is made of UL94-V0 grade flame-retardant and temperature resistant material for safety and reliability.

**Exterior:** Plain white case made of flame-retardant polycarbonate material. Glossy surface, with a matte finish around the input/output ports.

**Practical:** Can be used at altitudes up to 2000 meters.

## Warnings

---
