How to Use

1. Slide down to remove the battery compartment cover as illustrated.

2. Install the AAA battery. Make sure the positive (+) and negative (-) poles are

3. Remove the nano receiver and plug it into the computer's USB port. Then close the battery compartment cover and toggle the on/off switch to turn on the mouse.

4. The mouse is ready for use when your computer system notifies that the installation is successful.

Note: Illustrations of product, accessories, and user interface in the user manual are for reference purposes only. Actual product and functions may vary due to product

Indicator Description

In the case of a low battery, the battery indicator will blink for 10 seconds when the mouse is turned on or awakened from sleep mode.

Note: The mouse adopts the power-saving design, and its battery indicator will automatically turn off and enter into sleep mode during use.

The battery life of the Xiaomi Wireless Mouse Lite varies depending on its working environment and workload. Generally, the battery life can last for over four months.

Battery Safety & Warnings

- Only use the battery approved by the manufacturer. Replacing with an incorrect battery type may invalidate the battery safety protection and cause a fire, or even an explosion.
- Keep the battery away from extreme heat sources, such as sunlight, fire, microwave, or oven. Failure to do so may lead to leakage of flammable liquid or gas, or even an explosion.
- Do not disassemble, strike, crush or cut the battery to avoid possible explosions.
- Do not subject the battery to extremely low air pressure as it might lead to leakage of flammable liquid or gas, or even an explosion.
- Stop using the battery immediately if there is any swelling.
- Do not swallow the battery to avoid chemical burns.
- If you think the battery may have been swallowed or may stay in any part of your or some else's body, seek medical attention immediately.
- Stop using the mouse and keep it out of reach of children if the battery compartment is not closed

- securely.
- Keep new or used batteries out of reach of children.

Do not dispose of used batteries with household waste. Dispose of them in a safe manner as per local

Specifications

Name: Xiaomi Wireless Mouse Lite

Rated Input: 1.5V 50 mA

Model: XMWXSBO1YM (Mouse)

Materials: PC, ABS, metals, and others

DXMWXSBO1YM (Nano Receiver)

Net Weight: 62 g (Excl. battery)

Connectivity: 2.4 GHz wireless connection

Item Dimensions: 113 × 60 × 36 mm

Supported Operating System: Windows 10

Operating Temperature: 0 °C to 40 °C

RF Specification	Working Frequency	Maximum Output Power
2.4 G	2408-2474 MHz	0 dBm

Regulatory Compliance Information

EU Declaration of Conformity

Hereby, Beijing Yueme Technology Co., Ltd. declares that the radio equipment type XMWXSBO1YM (Mouse)/DXMWXSBO1YM (Nano Receiver) is in compliance with Directive 2014/53/EU. The full text of the EU declaration of conformity is available at the following internet address:
<http://www.mi.com/global/service/support/declaration.html>

WEEE Disposal and Recycling Information

All products bearing this symbol are waste electrical and electronic equipment (WEEE as in directive 2012/19/EU) which should not be mixed with unsorted household waste. Instead, you should protect human health and the environment by handing over your waste equipment to a designated collection point for the

recycling of waste electrical and electronic equipment, appointed by the government or local authorities. Correct disposal and recycling will help prevent potential negative consequences to the environment and human health. Please contact the installer or local authorities for more information about the location as well as terms and conditions of such collection points.

Declaration of Conformity

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received,

including interference that may cause undesired operation.

Important: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interfer-

ence by one or more of the following measures:

- Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

- Consult the dealer or an experienced radio/TV technician for help.

IC Declaration of Conformity

This device complies with Industry Canada license-exempt RSS standard(s).

Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.
