10000mAh Mi Power Bank 3 Ultra Compact User Manual

Thank you for choosing 10000mAh Mi Power Bank 3 Ultra Compact. This product is small and portable, supporting a maximum of 22.5 W in two-way fast charging. Equipped with high-quality lithium polymer battery cells and a charging and discharging chip, the power bank performs excellently in terms of safety, efficiency, and compatibility.

Notes:

The battery level check button is not a power button.

The power bank detects charging and discharging automatically.

Safety: This power bank is equipped with multiple safeguarding technologies to prevent overcharging, over-discharging, overheating, and short circuits in any working condition.

Fast Charging: USB-A single port supports 5 V/2.4 A, 9 V/2.5 A Max., 12 V/1.85 A Max. fast charging mode. USB-C single port supports 5 V/3 A, 9 V/2.5 A Max., 12 V/1.85 A Max. fast charging mode.

Compatibility: The built-in USB charge controller is compatible with most smart devices including smartphones, and tablets.

Quality: High-quality lithium polymer battery cells and a durable charging and discharging chip.

Charging

To charge the power bank, connect a Mi power charger and charging cable to its USB-C or Micro-USB port. The indicator shows the following charging status:

Battery Level	LED1	LED2	LED3	LED4
0-25%	Blinking	Off	Off	Off
25-50%	On	Blinking	Off	Off
50-75%	On	On	Blinking	Off
75-99%	On	On	On	Blinking
Fully Charged	On	On	On	On
Charging Error	Blinking	Blinking	Blinking	Blinking

Discharging

To charge devices via the power bank, connect the charging cable to the device and the power bank's USB-A or USB-C port. The indicator shows the following discharging status:

Battery Level	LED1	LED2	LED3	LED4
Undervoltage	Off	Off	Off	Off
0-25%	Blinking	Off	Off	Off
25-50%	Blinking	Blinking	Off	Off
50-75%	Blinking	Blinking	Blinking	Off
75-100%	Blinking	Blinking	Blinking	Blinking

* Low-current discharge: When the power bank is not charging, double press the battery level check button to enter the low-current discharge mode. This mode can be used to charge low-current devices such as Bluetooth headphones and smart bands. The indicator lights will turn on one by one to indicate the power bank is in low-current discharge mode. Simply press the button again to exit this mode. The power bank will automatically exit this mode after two hours.

Warnings

Improper use may result in battery failure, overheating, and even fire or explosion. To ensure your safety and minimize the risk of personal injury and property damage, please observe the following precautions:

- This power bank is not a toy. Please keep it away from children. Do not let children use or play with this power bank in order to avoid accidents.
- When charging this power bank, make sure you use a charger that complies with the local safety standards to prevent electric shocks or cause damage to the battery.
- Do not expose this power bank to pressure, impact, strong vibrations, or liquids. Any of these occurrences may lead to a short circuit or cause damage to the battery or electrical circuit. If this happens, stop using the power bank immediately, and dispose of it properly.
- When the power bank becomes swollen, deformed, starts to leak, or its capacity is significantly reduced, please stop using it immediately and dispose of it in a proper manner.
- Do not charge or discharge this power bank in places where its heat dissipation may be affected, such as in the pocket of your pants, a closed bag, or on a bed or sofa. Ensure the power bank is not covered by clothing, pillows, bedding, or other miscellaneous items during its working. When using the power bank to charge devices including phones for an extended time, do not stack them together to ensure better heat dissipation.
- Do not disassemble, puncture, strike, or short circuit this power bank. Never expose it to liquids, fire, and other heat sources such as stoves, heaters, or environments with ambient temperatures higher than 60°C (140°F).
- When it is hot, do not leave this power bank in a car or places that are exposed to direct sunlight.
- This power bank contains a lithium polymer battery. Opening the casing is strictly prohibited so as to avoid battery damage or safety hazards.

Precautions

- Please fully charge this power bank before using it for the first time.
- Use a qualified charger and a USB cable (Mi brand products are recommended) when charging the power bank or using it to charge other devices.
- When charging this power bank, do not leave it unattended for a long time. Unplug it from the power supply before going out.
- Once this power bank is fully charged or fully charges the smart devices, unplug the charging cable in a timely manner to prevent damage.
- If the battery level indicator does not light up after pressing the button, it may be because the power bank is in protective mode. Try plugging in an external charger will restore the power bank.
- When not using this power bank for a long time, store it in a cool and dry environment and keep its battery level in the range of about 25–50%. For long-term storage, do not fully charge the power bank or leave the battery level empty to avoid reducing its battery life.

Specifications

Model: PB1022ZM Battery Type: Lithium Polymer Battery

Cell Capacity: 10000 mAh, 3.7 V, 37 Wh

Input Port: USB-C/Micro-USB Output Port: USB-A/USB-C

Input: (USB-C) 5 V=3 A, 9 V=2.5 A

(Micro-USB) 5 V=2 A, 9 V=2 A

Output: 22.5 W Max. (Triple-port) 5 V=3 A

(USB-A) 5 V=2.4 A, 9 V=2.5 A Max., 12 V=1.85 A Max.

(USB-C) 5 V=3 A, 9 V=2.5 A Max., 12 V=1.85 A Max.

Operating Temperature: 5°C to 35°C

Item Dimensions: 90 × 63.9 × 24.4 mm

Charging Time: Approx. 3.5 hours (PD 24 W charger* or above, with a USB-C to USB-C charging cable)

Approx. 6 hours (5 V/2 A charger*, with the charging cable included)

*Charger is not provided with power bank.

The manufacturer hereby, declares that this equipment is in compliance with the applicable Directives and European Norms, and amendments. The full text of the EU declaration of conformity is available at the following internet address:
